Committed to your mission

✓ Breakthrough Engineering

Vadosity differentiates itself from competitors with Engineering Breakthroughs that have saved the government millions, solved 'unsolvable' problems, shortened delivery times by months and fulfilled customer requirements with innovative solutions that exceed expectations

✓ Health Care IT

Our leadership architected and led development of the VA's Vista Integration Adapter (VIA). VIA is the premier web service for the world's largest integrated hospital system. This success has led to over \$26 million in direct follow-on work.

✓ Information Technology

- Full Stack Software Development
- Cloud-based Mobile Applications
- Green field to Legacy system development
- Business Communications
- Technical Staffing
- Data Migrations
- Customized Workflow Management Systems
